

Project name
Idlewild Lake outfall
rehabilitation (4042)

Location
Jasper, Indiana

Completion date
February 2006

End user / Owner
Idlewild Utility District

Contractor
Reynolds Inliner, LLC

Description

Supply of 38" ID Fiberstrong™ FRP pipe SN 36 with flush Bell x Spigot "O" ring joints, plus an 80" riser pipe

Advantages / unique project features

A Corrosion resistant pipe system used to reline corroded corrugated metal pipe used in a lake overflow drainage line. Flush joints made insertion into old pipe easy.
