Rotterdam, Holland

**Completed date**  
1993

**End User**  
Drinkwaterleiding Rotterdam, DWL  
(Potable water company Rotterdam)

**Contractor**  
Siers contracting

**Consultant**  
DWL

#### **Description**

Due to soil corrosion of a 1400mm (56") concrete pipe, a relining pipe of 1200mm (48") was supplied, suitable for drinking water .

#### **Scope**

Our scope included:

- Engineering
- Fabrication
- Installation (supervision)

#### **Pipe System**

The supplied pipe system was our 1200mm ( 48 ") Fiberglass suitable for drinking water. Total supplied length of the relining pipe was 3000 meters (10,000 Feet).

#### **Advantages**

Low maintenance and corrosion resistance were major reasons for the customer to choose Fiberglass pipe.
