

PROJECT

Gas Gathering Line

LOCATION

El Campo, Texas

END USER

Apache USA (US Independent Operator)

COMPLETION DATE

2006

DESCRIPTION

After repeated failures with a major competitor, APACHE USA converted all of their gas gathering lines to Yellow Box® manufactured by Future Pipe Industries, Inc. The highly corrosive nature of the produced hydro-carbons required the use of a corrosion mitigation system that resisted electrolysis prevalent in the field.

SCOPE

- Manufacturing

THE FPI ADVANTAGE

Sturdiness of the Yellow Box® system as opposed to previously run GRE systems.

PIPE SYSTEM

100 mm (4") Yellow Box® 87 Bars (1250 PSI) line length of 2,600 meters (8500 ft).
